MORE COLONIZATION OF BLACK VOTERS .- We call the attention of every good Democrat in the city to the following card from our Tewnship Committee. If our citizens do not exert themselves to head off the Rads in this their last and most desperate struggle for supremacy we will lose the great victory already in our grasp. We heard on yesterday of a negro who offered twenty five dollars in advance for a miserable shanty in 4th Ward. Another one has rented a house in the same Ward and filled the kitchen with bunks sufficient to accommodate ten voters. Such : thing should not be tolerated in a free community. Let our people look to it that for a few dollars rent they do not endanger our success in the coming election. Sell not your birth-right for so paltry a mess of pottage:

[For the Daily News. HEAD OFF THE SQUATTERS. From reliable sources we learn that within the last few days the Radicals have been moving a number of negroes in the 5th Ward of this city for the purpose of overcoming the Democratic majority at our next city election, and that they are now securing every vacant tenement house in that Ward which they can possibly rent. We beg our Democratic fellow-citizens not to throw away this opportu-nity for securing the city government in the hands of true, honest and good men. There are only a few days in which these negroes can move in order to entitle them to vote in that Ward, the law requiring that all citizens shall have resided thirty days in their wards before being entitled to A few days rent amounts to but little, and we feel satisfied that when attention has been called to such practices that all good Demo-erats will refuse either directly or indirectly to lend their aid to the

Radical party. W. W. Jones, J. H. SEPARKS, T. P. DEVEREUX,

G. V. STRONG, Committee. City papers please copy.

A Union Religious Convention. -At the request of the Editor of the Suffolk (Va.) Christian Sun, we give place to the following item of interest to many of our readers in every section of the country:
"A convention of the friends of

Christian and Church unity will be held in Suffolk, Va., commencing on the 5th of May next. This convention was appointed by a Council of practical union lovers which assem-bled in Cincinnati, Ohio, on the 21st of October last, and framed a Basis of Union, and issued an address to all christian ministers and churches in North America, inviting them to union and co-operation in work and worship. The Basis of Union recites the doctrines generally held by all Evangelical denominations in com-mon; extends liberty with the right opinion on all minor points of doctrine and practice, and invites endorsers to the Basis. The endorsers of the Basis of Union will compose he voting members of the Convention, but all Evangelical ministers of every denomination, who favor Christian and Church Unity on the com-mon faith of Protestants, are invited to be present and participate in the exercises of the meeting, and all Evangelical churches, laboring for

to the Convention. "A number of ministers and laymen, representing the union feeling of the church, from the North and South and the East and West are expected to be present and participate n the proceedings of the Convention. The exercises of the Convention at expected to continue a week, and will be the full inauguration of an effort to bring all the Evangelical denominations into a closer union, and co-operation in religious worship and Christian work. Provisions will be made for the accommodation of all

question of the recent change of the gauge of the road between Greensboro and Charlotte has excited attention all over the country. This is the way the Washington Republican speaks of it: "Southern travelers, and fhose people who are interested in the rapid transportation of freight over the railways of the South, have been rejoiced to learn that, under a recent decision of the Supreme Court of North Carolina, the gauge of the railway between Charlotte and Greensboro has been changed to the tread of connecting lines, so that the necessity of shifting car-wheels on their axles, always conceded to be dangerous, which has heretofore ex-isted, is now obviated. If this change is allowed to be made from Greensboro east to Raleigh and Goldsboro a full and unbroken connection by rail with all points South will be established through the State, which is not now possible. Strange as it may appear, however, many of the people of North Carolina are opposed to this change, and a great deal of hot blood and excited language has been aroused and provoked by the consequent discussion. It is claimed that Virginia is to be benefitted by the change, and that North Carolina has been virtually sold out to that irrepressible Pennsylvania Dutchman, Tem Scott. Of course the Rip Van Winkles of the old North State do not relish submis-

sion to this Dutch railway magnate.' PEARCE COTTON SEED.—The Norfolk Landmark of a recent date contains the following: "Messrs. man & Dancy sold on Saturday three bales of staple cotton at 20 cents per pound. The cotton was of the variety known as the Pearce cotton and was very superior, both in grade and staple. It was shipped by Ed-win W. Fuller, Esq., of Louisburg, and was purchased by Messrs. Reyn-olds Bros. & Co. for the Liverpool olds Bros. & Co. for the Liverpoo market."

For seed or circulars address J. Pearce, Wilson, N. C. Mr. A. M. McPheeters, of this city, has some of these superior seed for sale. A sample of the cotton can be seen at his office.

We announce again that marriage and obituary notices are charged at half price, and that those received by mail will not be inserted unless accompanied with a responsible

THE FAYETTETILLE NORTH CARO LINIAN OF 1845.—We have had placed before us a copy of the North Caro-linian, published in Fayetteville on the 21st of June, 1845, which contains many items of interest of that date. We notice as the Democratic candidates for Congress at that time Messrs. Charles Fisher, David S. Reid, Jones C. Dobbin, Jas. J. Mc-Kay, J. R. J. Daniel, Henry S. Clark and Asa Biggs, and as the Whig candidates Messrs. Thomas L. Clingman, Daniel M. Barringer, A. B. McMillan, Jonathan Worth, Alfred Dockery, Thomas D. Means, Richard L. Donnell and David Out-

law. It announces the death of Gen. Jackson on the 8th of that month, and says "he was the hero of the country and age in which he lived." Under the head of marriages it says: "Very suddenly, in the office of the Clerk of the County Court of Randolph, on the 12th inst., Mr. Jonathan Robbins to Miss Jane Rob-

REVIVALS.-Three revivals of religion are progressing in this city at this time. At the Baptist Chapel, in the eastern portion of the city, Messrs. Hufham and Jordan have had in session for some weeks a re-vival, and their labors have been blessed with 75 converts, with 44 mourners at present. At the First Baptist Church Drs. Skinner and Pritchard have commenced a revival, with 12 converts thus far. At the Methodist Chapel a revival is progressing under the ministration of Rev. Mr. Jurney, and some 15 converts have been the result. We are pleased to note this awakening in our midst.

AN INTERESTING OCCASION.-It is thought that the Southern Agricultural Congress will meet in this city in May instead of July, as heretofore announced, following the Cen-tennial in Charlotte. The Masters of the Granges of the Southern States will assemble here at the same time, and it is understood that the manufacturers and consumers of cot-ton in the North will meet here also at the same time to consult with the planters of the South. This will form a most interesting occasion.

ENCOURAGE HOME INDUSTRY .-Merchants and others can not pos-sibly do better than to buy of Holt & Moore's factory, whose advertise-ment appears on our first page. They furnish the best goods at the lowest rates. Buy of them and keep your money in the State.

We learn that Messrs. Sanders & Co., the "big" guano dealers, have sold more than seven hundred tons of the Celebrated Star Phosphate this season, and about two hundred tous of Mapes' Nitrogenized Super Phos-phate of Lime, and about one bundred tons of Mapes' Acid Phosphate, which is used for composting with cotton seed. We hear these are the largest sales made in Raleigh.

tylish Turnouts in Washington. A Washington corespondent of the Boston Post describing a stroll up Pennsylvania avenue, says the display of turnouts is magnificent nowadays. Mrs. Grant is very fond of driving, and may be seen daily in a high park phaeton, the gift of Gen. Butterfield. The President's horses are high-spirited animals. When he drives it is generally alone in a buggy take occasional airings together, but not as frequently as they did a year ago. Among the most stylish turn-outs to be seen these bright days are those of the foreign Ministers. The family of the British Minister are absent this winter, and as Sir Edward Thornton is a great pedestrian, their equipage is no more seen. The Per-uvian Minister is very wealthy. His handsome young wife and her two afternoon. They have a clo e clarence and also an open carrage for mild and warm weather. The Secretary of the Treasury and the Secretary of War both have blooded Kentucky horses for the family equipage. Mrs. Senator Jones appears in one of the most costly and stylish equipages that the city can boast. Mr. Lata, a real estate agent, drives a pair of Kentucky horses for which he paid

a fabulous price. The Secretary of State and wife never make any unnecessary display about anything. The young people prefer driving in phaetons to the more pretentious carriage, or walking for the purpose of meeting the beaux. The daughters of Admiral Porter have a pair of ponies which they drive in a low basket pheaton. Some of the demi-monde also drive themselves in prety little pheatons.

A zealous but ignorant negro preacher in expounding to his flock as to the, astounding nature of miracles got a trifle conused in the matter. He said: "My beloved friends, the greatest of miracles was bout the loaves and fishes—dere was 5,000 loaves and 2,000 fishes, and de twelve postles had to eat dem all, and de miracle is dey didn't bust." A LITTLE HERO.—Two children still and stark on a snowy slope—the girl wrapped round in the coat of the boy, and both young faces fixed by frost in the calm repose of death—was the picture presented to the eyes of wearied searchers near Mount Ayre Ia., the other day. This winter's cold has taken many a life, but none of the sufotunates were found in so A LITTLE HERO.-Two children

of the unfotunates were found in so touching an attitude as this. It was not in the heat of the conflict that the boy died; there was no rattling drum to stir his thickening blood, nor drum to stir his thickening blood, nor comrade's eyes to mark his heroic fall; nothing to rouse his young enthusiasm. But the little coat folded carefully about the girlish form, and his own naked breast, told of the quiet courage and self-scrifice with which he had met the pitiless blast that blew as cold on him as her.—Chillicothe (O) Gazette.

In Redmon, Iowa, a few days ago-a man killed the hen that might hav laid him golden eggs if he had let it live. In dressing the fowl he was surprised to find, in its masticating apparatus, a nugget of gold weighing twelve grains. A few days after a neighor killed a chicken, and in its stomach was found a similar, though smaller, specimen of the valuble metal. The specimens were tested by jewellers, and prounced pure gold Since the a general slaughter is going on among the poultry. But the question is, Where did the chickens find the gold?

ENCOURAGE HOME INDUSTRY. Why will our Merchants and others buy their Clears from the North instead of patronizing their own Factories at home. Why will they be imposed upon by those Nomals of Northern firms, the Drummers, Whose expenses and extangances they (our Merchants) have to pay out of the cabbings leaves, pluzs soaks, spurious mixed Havanas, and infected rubbiss, that they buy from them.

they buy from them.

By purchasing their Cigars from the North, our Merchants obtich a class, that neither care for our community, and leave none of the money spent with them here, whilst the Cigar Manufacturers of Raleigh languish for reason of patronage facts the very one's that ought to take a pide in building up home Manufacturers in their midst. There's no kind or sayle of Cigar that the Northern Factories make, that our Cigar Manufactorers cannot make also, and as for prices, we can give better satisfaction both in quality and cheapness, than the whole army of Commercial

satisfaction both in quality and cheapness, than the whole army of Commercial Agents that thest Ruleigh in the interests of Northern Houses.

By encouraging Home Mannfactures, cur Merchants will see our Clear Fuctories (instead of being mere burnerques of Factories of modes to appearance) large in size, flourishing in plenty of work, with twenty or thirty Clear makers constantly anaking up stock for home communition. Those men that our Manufacturers wentlemander would spend from three to four hundred dollars weakly, thereby benefiting the community at large and keeping the money where it ought to be at home. BILL HEADS. LETTER HEADS, CARDS, PROGRAMMES, HANDBILLS, PAMPHLETS, POSTERS, CHECKS, DRAFTS, &c

THE tornado of last Saturday extended through Georgia and South Carolina as well as North Carolina, and did immense damage in the line of its march. Much suffering has been occasioned thereby, and in some instances positive want has been occasioned. In Georgia especially was the storm severe, in some instances whole towns being blown down, occasioning much loss of life. On several of the Georgia railroads trains were blown from the track, the roads were obstructed and persons killed. No such storm, in its vastness and destructiveness, has visited this section of the country in many years.

THE Weldon Roanoke News, referring to the call of a Convention and its hitherto opposition to it, says: "We defy any to produce a record which is truer to the principles of the Democratic party than we; as the needle to the pole, we have been true to its teachings, have labored to advance its interests. A majority of our party, through their representatives, have expressed their approval of the measure, and we acquiesce in their decision and will be found among the most zealous, advocates of the bill; it becomes all good men to do this." This is the right spirit, Brother Manning and we hope every Conservative in the State will rally to the standard that has been raised by the overwhelming voice of the party as expressed through its representatives in the General Assembly.

WHO BELIEVES IT!

If the vote of the people of North Carolina were taken this day or any other day, is there a man residing within her borders with intelligence sufficient to find the Capitol, that does not believe it would be overwhelmingly against the change of the gauge of the greatest of our State works, by a small Virginia corporation. The fact cannot too often be repeated that this change of gauge was in direct conflict with the wishes of our people and known to be so by the Judges that gave the color of authority for it and to those four members of the Legislature that supported it. And their action, whatever the motive that induced it, will divide our citizens in feeling as it has already done in interest-there will certainly be in the course of a little time, (if Judge Settle's and Judge Reade's "policy" is allowed to continue uninterruptedly as the policy of the State as they falsely assumed,) an alienation among our citizens. Embittered feeling will exist, one section will be arrayed against another section. The West against the East and the East against the West, must be the inevitable result. Governor Brogden, can you not prevent it? Prevent the dismemberment, in effect, of the territory of our dear old State? Did not the Legislature, with unparalleled swiftness, clothe you with ample power to do it, and ask you to do it? When was there ever such acts as those bearing on this subject passed through the Senate of North Carolina, with such unanimity. Even the President of the Senate, when interrupted, in the act of putting the vote, by the Senator from Guilford, to get his legal opinion, replied quickly, "If I did not know the bill would pass, I would come down on the floor and advocate it for the honor of North Carolina and the interest of our Eastern friends." These were noble words from an able citizen and lawyer and pure and liberal statesman; one that could dignify and adorn any position in the gift of our people. He felt the indignity; he was sensible of our insignificance in the eyes of others from our indifference to State pride, that pride which would exalt ns in the opinion of other States. Then can you rot, will you not, teach those willing to strike us down, that there shall be blows to take as

Let the party be organized and ready

for the fray. THE Wilmington Star has gone to work in earnest to arouse the people of the State to the necessity of sending good men to the Convention to be held in this city in September next. We felt confident no paper in the State would work more zealously to accomplish this end. Says the Star:

"The work before the Conserva-tive party in North Carolina this spring and summer is momentous and arduous. The reorganization of the party will require much wise provision, and its effective handling in the field will call into requisition all our latent qualities of deliberaparty is never easily equipped for combat in North Carolina. Composed of heterogeneous elements and facing a banded and disciplined foe kept toether by the fear of the many operaed upon by the vicious astnteness of the few, it has difficulties under which its friends in other States never have to contend in their warfare with Radicalism. These embarrass-ments it is the part of statesmen to cut asunder, leaving the party free and strong. Wise leadership points out dangers and seeks ways of avoid ance and salvation. It never takes it for granted that a thorn-covered way leads inevitably by some unknown power of magic immediately broader, safer. more beautiful road where flowers bloom and birds carol and all beauty and serenity and safety and happiness are."

MECKLENBURG CENTENNIAL-TENNESSEE AND NORTH CAR-

We are indebted to His Excellency, Governor Brogden , for the following proceedings of a meeting at Nashville, Tennessee, touching the celebration of the Mecklenburg Centennial on the 20th of May

At a meeting held in Nashville, State of Tennessee, by the Joint Committee appointed by the General Assembly of the State of Tennessee and the Tennessee Historical Society, on the evening of the 16th of March, A. D. 1875, Col. H. M. Polk Killebrew appointed Secretary. At which meeting the following Preambles and Resolutions were offered and

nanimously adopted: WHEREAS, The State of North arolina, of which Tennessee is the fispring, was the first to make armed sistance to British Tyrrany auterior to the American Revolution, deying the right of the British Mintry to quarter troops in America at expense of the Colonies, and then in 1765 forbidding and preventing the landing of the British stamps from the ship which brought them across the ocean; and,

Whereas, From two to three thousand patriotic North Carolinians met the British forces at the battle of the Alamance on the 16th of May, 1771 and shed their blood in defence of American liberty, which event formed a connecting link between their nsistence to the Stamp act, and the subsequent movement of 1775, and though defeated, still ' like the mammoth they shook the bolt from their brow and crossed the mountains;"

Whereas. In their westward way they settled on the Watauga, at present the Eastern border of Tennessee and there in 1772, formed, as is believed, the first written compact of civil government west of the Allechanys with John Sevier, James Robertson and other distinguished pioneers as their governmental com-

missioners; and, Whereas, Mecklenburg had become such a "hornet's nest" and "hot bed of rebellion," that on the 8th of April, 1775, the Provincial Assembly was dissolved by proclamation. Thus ending forever all legislative action in the Province of North Carolina, under the royal government; and, Whereas, The good people of the county of Mecklenburg assembled in their Court House in Charlotte on the 20th day of May, 1775, and then and there deliberately passed a series of resolutions, absolving them-selves from all allegiance to the British Crown, and declaring themselves

a free and independent people; and Whereas, This is believed to be the first step deliberately taken towards laying the foundation of our Nation-Independence, the first taken in the direction of free and Republican lovernment on this Continent, that

therefore be it Resolved, By the Joint Committee of the General Assembly of Tennessee, acting in conjunction with the Committee of the Tennessee Historical Society, that it is eminently proper for North Carolinians and Tennesseeians to have a Centennial Celebration of the event referred to, Resolved, That we earnestly commend that the Governors of the States of North Carolina and Tennessee declare by proclamation, that the 20th of May, 1875, shall be a Centennial Holiday, and that the people of the several cities and counfies of these States be invited to assemble on that day wherever it may be most convenient for them to do so, and cele

brate in an appropriate manner the one hundreth Aniversary of the Declaration of Independence by the patriotic citizens of Mecklenburg.

Resolved, That the committees of the General Assembly and the Tennessee Historical Society will attend the Centennial Celebration at Charlotte, in Mecklenburg county, North Carolina, on the 20th of May next.

tors Astounded. WASHINGTON, March 21.—The Civil Rights bill has come home to the United States Senate in an unexpected manner. Attached to the hamber for the use of the members is a first-class barber shop, the artists in which are paid by the Govern-ment and provided at its expense with an exquisite stock of toilet articles. Bruce, the new colored Senator from Mississippi, who is a full-blooded negro, availed himself of this tonsorfal perquisite the second day after he was sworn in, and has been since then an occupant of one of the chairs for at least an hour every day. As soon as he arrives in the morning he has his hair nicely curled by his colored friends, and before he leaves in the afternoon he gets fixed up again for dinner. Some of the mo fastidious Senators who visited the place a few mornings ago were as-

tounded at the unusual sight of a "nigger" in the Senatorial barber shop. The combs and brushes with which they were accustomed to be adorned were deftly flying through his kinky hair and over his swarthy face. The result is they have given he Senate barber shop a wide berth, and held several indignation meetings on the subject.

The change of gauge of the North Carolina Railroad from Greensboro to Charlotte is as great an outrage as was ever perpetrated on our State. It s thought that the terms of lease have been violated, and if so, it will declared invalid. It is bad enough for our State to be cut in two, and its railroad interests thus subverted, without the actors in it try-ing to eyade every process of law. It is now a fight between the Governor and the railroad jobbers and we hope the Governor will win if he has to call out the militia and tear up the road .- Roanoke (N. C.) News.

In an Indianapolis street car the other day a lady pulled the strap for the driver to stop at the first crossing of a street, but the bell did not strike. She did not notice this, but rushed to the door and began to use her tongue lash on the driver quite freely. She wanted to be set off at the first cross-ing, and he had driven nearly to the second. Without a word he promptly stopped his car, hitched his horses to the rear end and pulled it back to the first crossing, much to the amusement of the other passengers

and the chagrin of the virago. A young gentleman lately attended a circus for the first time, and on the Sunday following was taken by his grandmother to church. He gazed around in some wonderment for : few moments. When the organis began to play, he turned to his grandmother and said, in a whisper: "Grandma, will there be a circus so I can see the lion?" "Why, no, Eddie, this is church." "Well," replied the little man, "it's circus music anyway."

AT IMPORTANT FACT .- The voluntary testimony of thousands establishes beyond all doubt a fact that of vit-limportance to the sick and debilitated, viz, that Hostet-ter's Stomach Bitters is an absolute specific for remittent and intermittent fever, dys-pepsis, constitution, billiousness, mental depression, siesp.essness, chroate diar-rinca, and all diseases of the stomach, liver depression, sleep, esthess, chronic diarrings, and all diseases of the stomach, liver and bowels. The unum dicated stimulants usually prescrited in these cases on y aggravate the symptoms, instead or removing them. The Bitters on the contrary, act as a corrective and invigorant, without producing the unpleasant and dangerous consequences of the old school practice. The action is mild and sootring to the irritated stemach and howels, promoting digestion. stomach and bowels, promoting digestion and preventing flatulence, neusea, head-ache and all intestinal irregularities. A wineglassful before meals greatly assists digestion. The convalencent may use them with great benefit, as a means of restoring strength and cheerfulness.

N U ORCHILLA GUANO A.A.

GUANOS.

A TRUE BIRD GUANO. VOL. VII NO 2L

AND

Soluble Ammoniated South Sea Guano. B. M. RHODES & CO., Office 82 South Street, Baltimore.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia. Chemical Laboratory of the University of Pennsylvania.

WEST PHYLADELPHIA, January 4th, 1875.

I have analyzed as follows:—"I Sample of "Soluble Ammoniated South Sea Guand prepared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 182 lbs., which I found to contain—

MOISTURE, 15 53 per cent,
SOLUBLE PHOSPHORIC ACID, 4.32 " equivalent to 9.43 pr. ct. of Bone Phosphate of Lime
PRECIPITATED, " 7.16 " 15.63 " 15.63 " "
NITROOFN, equivalent to 2.98 " Ammonia.
ALKALINE SALTS, - 8 25 "

Both samples were certified to having been taken, sealed and sent by Thos. HARRIS HODGES, Notary Public, and were in perfect condition. F. A. GENTH. Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano: The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perfectly justified in recommending the Orchilla, W. P. TONRY, Prof. Anal. and App'ld Chemistry, Maryland Institute.

The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Sait., but more particularly for the physical condition and texture in which this Guano is presented.

G. A. LIEBIG, Ph. D.

This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Cotton Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with that of Phosphatic Manure.

I am, gentlemen, respectfully yours,

J. W. MALLET, Charlottsville, Va.

RALEIGH, N. C., January 29, 1875.

From the Analysis of Dr. Genth there is no doubt of the high per centage, of Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. MALLETT upon the above testimony of himself and Prof. Lieber & Tonkry as to its physical condition that it offers a desirable source of Phosphoric Acid to Cotton Farmers and others who have the means of furnishing the Nitrogenised matter at home.

Taz Receipts and the New Constitution.

Messrs. Editors: Every known principle of justice and political equiy requires that a citizen should share bearing the burdens of government as a precedent qualification to taking part in assessing those burdens. If the will of the people in this respect is expressed, as I have no doubt it will be, in the new Constitution of the State to be framed next September, a clause will be inserted requiring that every citizen shall show his tax receipt in full before being allowed to vote. This would insure a more economical administration of the government and a closer collection of the revenue. two objects much to be desired. New York-Article 2, section 1, of RICHMOND, VA., February 25th, 1875. the Constitution of this State provides that no man of color shall be entitled to vote unless he shall have actually rated and paid his taxes. Rhode Island.—Every male citizer of the United States of the age of

The Guanahani Guano Company has seen fit to publish a card to the effect that our "Cat Island Guano" is of an inferior quality to their importations, and had been rejected by them. From the reputation of the signees of that card, we presume they did not know that this statement was false. We propose to prove to the satisfaction of that Company and of the public the following facts, viz:

1st. That their agent at the Islands attempted (AND FAILED) to get control of deposits of Guano that were secured by a member of our firm who is now at the Islands.

2d. That our Cat Island Guano, according to the analysis of Professor White, of the University of Georgia, (who analyzed for the Guanahani Company,) is at least the equal of the Guano imported and sold by the Guanahani Company is spring in the cotton sections of Virginia and North Carolina.

Our Guano shall stand or fail by the crucial test of the analytical chemist, and not by eards put out on the eve of the planting season. We will have each cargo analyzed before its receives our brand, or is offered the public, and we will publish the report of the chemist. We invite the Guanahani Company to publish the heanityses of each of the various lots offered or sold by them last spring, that the public may decide.

We have been enabled to avoid the mistakes that the inexperience of the Guanahani Company betrayed them into last year. We are not taxed with the enormous expenses for salaries, &c., paid by them, and with one of our firm on the Island, and one of the most experienced Guano men in the dountry as our General Agent, we are satisfied we can beat them in quality and price. We challenge them to meet us in the laboratory or on the plantation; and until they can compete with us successfully in these tests, their paper attacks will not hurt the best natural Guano (except Peruvian) yet offered to the public.

They write about "their standard!" Will they publish it? Why did they publish a standard last year, and withdraw it? We have taken proper steps in the Courts to p THOS. BRANCH & CO.,

It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

Cotton, Corn and Tobacco

WHANN'S PHOSPHATE has produced the most gratifying results, in many instance for exceeding the most sanguine hopes of those who have used it.

We offer this renowned fertilizer for the Coming season, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Green Level, Wake County, N. C., Nov. 25, 1874.

Messrs. Williamson, Upchurch & Thomas:
Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last Spring made the best crop of cotton I ever made, and I consider it decidedly the best fertilizer I ever used, I want it again next season.

Yours truly,

8. W. MITCHELL. Louisburg, N. C., Nov. 9, 1874. Messrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,
JOHN E. THOMAS.

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the season dry, but the crops surpassed our exceptations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt. Oxford, N. C., Dec. 15, 1874.

Louisburg, N. C., November 7, 1874. Messrs, King, White & Shaw:

I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer.

NORRISS MERRITT. Norfolk, Va., January 6th, 1875.

Messrs, Waltor, Whann & Co., Wilmington, Del.:

Dear Sirs:—in response to your inquiry as to the action and worth of Whann's Raw Bone Super Phosphate, we beeg to say that we have sold it to the best planters of North Carolina for eight consecutive years. Many of the parties who bought of us eight years ago are still using it. It has always ranked as among the very best of commercial fertilizers, and has been very popular wherever used.

Yours truly,

NOON DISPATCHES. FROM WASHINGTON.

The President Visited and Consulted in Regard to the District Judgeship of Louisiana,

WASHINGTON, March 25.-Marshal Packard, Judge Pardee and Colonel Fish visited the President to-day regarding his power to appoint Pardee or any one else as District Judge of Louisiana. The President still has his power under advisement, but it is a foregone conclusion that the bench will be vacant until the convention of next Congress. It seems to have been the determination of the Senate to send there a person who had no local affiliations at the latest hour.

Ex-Senator Pratt, of Indiana, was suggested to the President by the Judiciary Committee. By the usual courtesy to the Ex-Senators, his name would have come up for immediate action, without reference to the committee, and the President was assured of Pratt's confirmation, but he adhered to Pardee, whose name went on the table. This action involves no personal disparagement to Pardee, but carries out the theory of the Republican Senators that an entire stranger should occupy the bench.

An Immense Iceberg in Mid Ocean-Great Difficulty Experienced.

NEW YORK, March 25 .- The steamships arrived yesterday brought re-ports of large quantities of ice en-countered in mid-ocean. The Halsatia from Hamburg, when in latitude forty-three and longitude forty, passed two immense icebergs and was three hours forcing passage through the large fields of drifting ice. The steamer Cimbria from Havre, met with with a similar experience, but found greater difficulty n avoiding the obstructions.

IMPORTED ONLY BY THE GUANAHANI GUANO COMPANY,

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation.

Last season, owing to the lateness at which we commenced importing, we were forced to put our Guanc on the market at once, but now having continued our importations during the summer and fail, and having large and well ventilated Warehouses in the city of Petersburg and at City Point, we are enabled to put our Guanc on the market, in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

PETERSBURG, VA.

in a condition as to dryness and freedom from lumps, equal to any standard refulizer.

We solicit a c'. etal perusal of our Circular containing the certificates sent us, and which can be belon application at this OFFICE, or from any of our AGENTS. Having nothing to co. Sal, we made no innovation on estab.ished usage, by publishing those is tters received unfavorable to our Guano, but careful inquiry in many cases proves that the c-use of its failure was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme West-ra counties of North Carolina, justify us in claiming place for our Fertilezer Superior to many, and sacond to NONE.

We confidently expect the continued patronage of the Agricultural Community and no exertion will be spared on our part to make
